

WANT TO BUILD YOUR BUSINESS? WE'RE HERE TO HELP

Business App Specialists, Registered
Accountants and Tax Professionals

CH CONSULTING

WHO WE ARE

We have a passion for business and technology – and how they can work together to generate actual measurable value.

Building a business is a bit like raising a child: it takes a village of skills to do it well, plus lots of time and attention. Since no business owner knows (or can do) it all, help is needed – and preferably help that saves both time and money too. That's where CH Consulting comes in.

We make it our business to help you build yours.

Based in Stellenbosch, CH Consulting provides a full range of accounting and tax services for both businesses and individuals, as well as payroll services, company and tax registrations, valuation services, business consulting and business systems.

What sets us apart is our passion for technology as a tool for unlocking value in business.

Business + Technology = measurable value

Technology is a vital enabler in our ever-evolving business landscape, and can save time and generate critical information if we use it correctly. The key is knowing how. Our team of accountants and software engineers at CH Consulting work together to ensure we use technology and business systems with measurable benefits for us and our clients.

INTRODUCING OUR FOUNDER

Founder of CH Consulting and Ignium Business Systems, Chris Herbst has an Honours degree in Business Management and a degree in Computer Science, both from Stellenbosch University. A registered accountant and tax practitioner, he recently acted as a commercial consultant and project leader on a software application with more than 3,000 users in the United States.

"We are more than a company of registered accountants, tax practitioners and business system specialists – we are here to make your business work for you."

With Chris' dual qualification and his passion for harnessing technology for business, CH Consulting is more than just an accounting and tax company: it's a partner for growth.

HOW WE WORK WITH YOU

Throughout we assist you with operational controls, other automation opportunities and identify areas where other business apps can add value.

STEP 1

We meet with you to understand your day-to-day business operations.

STEP 2

We ensure that data is collected correctly on a day-to-day basis by implementing the Xero "Beautiful Business" accounting application (app) and the Receipt Bank invoice collection app.

STEP 3

Using our detailed business app knowledge, we automate your administrative tasks as much as possible – freeing you to focus on your core business!

STEP 4

We enable you to use these business apps to:

- Send out quotations and invoices on the go
- Send out proposals with one-click acceptance
- Automate your debtor follow-ups
- Capture invoices on the go by simply taking a picture
- Email in other invoices.

STEP 5

We help you understand the simple financial reporting that these apps provide. This means you can see the financial state of your business in real time, giving you better control.

STEP 6

You are now collecting data accurately and automatically, and you understand your financial reporting. It's time to turn this understanding into action.

STEP 7

We can start working on strategy and controls, beginning with optimising your cashflow.

STEP 8

We now implement various other actions, monitor the financial reports for results, and make adjustments to your strategy where needed.

SO WHAT MAKES US SO UNIQUE?

On the one hand we have years of qualified accounting experience and on the other we have experience in software engineering.

INTIMATE SMALL BUSINESS EXPERIENCE

At CH Consulting we understand the challenges faced by a small business.

ELABORATE BUSINESS APP UNDERSTANDING

With an understanding of these tools we can optimise your business.

We combine this understanding in your business to create

VALUE

SATISFIED CLIENTS

We service a range of clients in South Africa and internationally.

“CH Consulting goes out of their way to make each client feel valued. The client saves time with advanced technology that makes running your day-to-day business very easy, whilst you receive professional, personal service at any given time, therefore not being just a number, but a priority. Ethics is non-negotiable and compliance a must. Trust the advice being given to you, save time and invest in your business future with CH Consulting.”

Rozelle Blackie – Golf Air

“I have had the pleasure of working with Chris and his team over the past 12 months. A more honest, ethical, client centric and service focused group of people I have yet to meet. My company has used the expertise of CH Consulting for app and web page development as well as for our accounting requirements. I have had the opportunity to deal with similar companies both in South Africa and abroad. Chris and his team are world class. They come very highly recommended.”

Dr Aubrey Kumm – GuavaVet
